The past decade has been a period of excessive fluctuation in the distribution and exercise of power in Jordan, and the land and the people have passed through some of the most agonizing moments of their history. The political climate has been polluted with suspicion and repression, and even when peace and tranquility returned, the determinants, ere, ere the external external factors, rather rather than the internal internal maturity and harmony of the system to create conditions of life which could ensure respect for law and liberties among the rulers, and trust and confidence among the subjects. The defeat of Arab armies in June, 1967 stimulated the rise of a Palestinian resistance movement based in Trans-Jordan, commonly known as the East Bank. This element has given a new dimension to Jordanian politics. The government and Commandos are at cross-purposes on practically every issue of public policy. The civil war and the blood-shed it entailed have further critically strained relations between the two. This has perpetuated an atmosphere of chronic tension and insecurity in the country.
