

How Do Living Things Find Food?

By Bobbie Kalman

Crabtree Publishing Co, Canada. Paperback. Book Condition: new. BRAND NEW, How Do Living Things Find Food?, Bobbie Kalman, All living things need food to survive, but not all living things eat the same kinds of food. Plants make their own food from sunlight, air, and water. Herbivores graze on grass or browse on the leaves of bushes. Carnivores hunt, trap, or scavenge for food. The bodies of living things are specially designed to find the types of food they need. Through captivating photographs and simple text, children will learn about food-gathering techniques animals use, such as camouflage, echolocation, pouncing, trapping, poisoning, and using tools. This book will leave them with a 'hunger' to learn more.

Reviews

These types of publication is the greatest publication available. It really is filled with knowledge and wisdom Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- Prof. Lenna Beatty III

A whole new e book with an all new point of view. It is one of the most incredible book i actually have go through. I am easily could possibly get a enjoyment of reading through a written book.
