

# Visualization in Scientific Computing '95

By Scateni, Riccardo / Wijk, Jarke J. van

Book Condition: New. Publisher/Verlag: Springer, Wien | Proceedings of the Eurographics Workshop in Chia, Italy, May 3-5, 1995 | This book represents results in the field of Scientific Visualization which is nowadays an indispensable discipline to get insight in the huge amounts of data produced by large scale simulations or advanced measurement devices. The readers will find a selection of state-of-the-art results and techniques in Scientific Visualization research, which they can use to find solutions for their visualization problems. | Visualization is nowadays indispensable to get insight into the huge amounts of data produced by large scale simulations or advanced measurement devices. The use of computer graphics for scientific purposes has become a well established discipline, known as Scientific Visualization. Many problems still have to be solved, and hence the field is a very active area for research and development. This book represents results of the sixth in a well established series of international workshops on Visualization in Scientific Computing organized by the EUROGRAPHICS Association in collaboration with CRS4 (Center for Advanced Studies, Research and Development in Sardinia), held from May 3 to May 5, 1995, in Chia, Italy. The thirteen contributions selected for this volume cover a...
