Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Traditionally, science and religion have kept their distance. But one pioneering researcher dared to apply scientific method to many religious claims. He dared to ask questions that many people condemn you just for asking. The answers may surprise you. This book has stirred up controversy, but progress comes, like it or not. If you are ready for a scientific look at religion, read this book. The Revealer is about the achievements of Jose Silva whose investigative mind became attracted to the study of the evolution of humanity. Silva reviewed human history and found many ups and downs. He noted that at a time when humanity was progressing very well, a war would break out, setting humanity back. In technology, humanity has been progressing steadily, but even while doing so, it was losing humaneness, Silva says. He means that human intelligence was gaining in the objective, physical, dimension, but at the same time, was losing in the subjective, spiritual, dimension. The mind and soul reside in a subjective, spiritual, dimension, Silva says, while the brain and body reside in the objective, physical, dimension. Recent research reveals that: \*The human left brain hemisphere is associated with the physical dimension, and is used for taking action. \*The human right brain hemisphere is associated with the spiritual dimension, and is intended to be used for thinking, for analyzing information, and for making decisions. But most human beings, approximately 90 percent, use the left brain hemisphere for both thinking and acting. His research revealed that the ten percent who use the right brain hemisphere for thinking and the left brain hemisphere for acting are healthier, luckier, and more successful than...
